

**5A)** Before sewing tooth together, sandwich the strap in between, with ends overlapped and hanging a bit over edge

Be careful when sewing not to catch the strap in the seam

strap placement

Make the ribbon strap a long enough loop to hang over the door knob (about 11 inches)

# Tooth Pillow

Cut 2 from felt  
1/4 inch seam allowance

**1A)** Before you cut the slit for the mouth pocket, machine stitch all the way around it to prevent it from stretching during use. Use this same method around the slit you cut in the back for turning.

**2A)** Cut out a piece of felt in this shape to form pocket. Secure on wrong side with fabric glue or pins and hand sew all around with hidden stitches. (Meaning don't sew all the way through the felt)

Cut this slit for mouth

Pocket  
Cut 1 from felt

- 1)** Cut out pieces; on front piece sew around mouth then carefully slit. See 1A
- 2)** Create pocket behind mouth slit on wrong side. See 2A
- 3)** Embellish. Add eyes, teeth, cheeks, eyebrows, etc...Get creative.
- 4)** Cut a slit down the middle of the back piece for turning (sew first, 1A)
- 5)** Sandwich strap inside and pin right sides together. See 5A.
- 6)** Sew all the way around.
- 7)** Trim seam, clip curves.
- 8)** Turn
- 9)** Stuff
- 10)** Hand sew the slit in the back
